My experience within the Film and TV industry, working as a Graphic Designer and Art Department Assistant, allows me to bring a fresh outlook and knowledge of many types of design from packaging and branding to 3D CAD work. I graduated with a First Class Honours Degree this year and since then have worked freelance within Graphics for several companies, so am comfortable with the Adobe suite and a quick learner when it comes to programs. I am a versatile designer, who enjoys exploring a brief from concept to completion, always looking for creative solutions.
